**Heidelberg/Perth.** Hammer Metals, 15.51% owned by Deutsche Rohstoff, announced today, that it has raised approximately AUD 1.2 million in a share placement. Deutsche Rohstoff participated in the capital raising with AUD 190,000 and holds 15,50% of Hammer Shares after closing of the placement.

Hammer will use the proceeds from the placement to accelerate exploration activities at its Mount Isa projects in Queensland, Australia. The campaign will target drilling the “Scalper” copper-gold prospect and the recently purchased “Millenium” copper-cobalt-gold project. Work at Millenium is designed to follow up high grade cobalt and copper intersections with the objective of outlining a JORC compliant resource estimate (Joint Ore Reserves Committee). Drilling will commence in late June 2016.
